Ornavasso, architectural projections in the Ancient Quarry

Starting from June, 2nd until September 30th at the Ancient Quarry of Ornavasso there will be some architectural projections which represent the most beautiful illustrations of the Divine Comedy, realized between 1861 and 1868 by the french painter Gustave Doré. By partnering with the national leader in architectural projections, Proietta, will take shape on the marble the wonderful illustrations made for the show about the Divine Comedy that took place on April at the Ancient Quarry. The projections are accompanied by a song of "Carmina Bruna" of the

german composer Carl Orff. This impressive show of "son et lumière" comes to life inside the great marble hall, after crossing the tunnel of 200 meters. The total duration of the visit, projections included, is about 20 minutes.

Visiting hours: from Tuesday to Friday from 3 to 6 pm - Saturday and Sunday from 10.30 to 12.30 am and from 3 to 6 pm. Visits can be made with any weather condition. Inside the Ancient Quarry there is a constant temperature of 8°.
