The season begins on Isola Bella and Isola Madre

On Saturday, March 24th the Borromeo Gardens on Isola Madre and on Isola Bella, closed from last October to ensure proper rest for the plants and and for maintenance, will reopen to visitors. The Gardens will open with the "Festival of Spring" that will last one whole week. Springtime is the ideal period of the year to visit the gardens thanks to the flowering of tulips, azaleas and the other flowers that color the islands. Not only nature, the Borromeo Islands also give a wide space to art: in the "Quadreria Borromeo", Princes Palace on the Isola Bella, there will be a special

exhibition with works with a floral theme. The Borromeo Islands have always attracted italian and international tourists, lovers of nature but also lovers of art. In the palaces of the Isola Bella and of the Isola Madre there are more than 2000 paintings. During the "Festival of Spring" the kiosks of the gardens on the islands will offer special flowers and herbs teas. A visit to the Borromeo Islands with their gardens and palaces is a real unique experience!
